ITEM REQUEST: **Schedule for Council Meeting**

TITLE OF AGENDA ITEM: BENEFIT TRUST FUND - AN ORDINANCE PROVIDING FOR THE ESTABLISHMENT OF AN OTHER POST- EMPLOYMENT BENEFIT TRUST FOR THE EMPLOYEES OF TOWN OF DAVIE, FLORIDA; AUTHORIZING THE JOINING AS A PARTY THE FLORIDA MUNICIPAL PENSION TRUST FUND MASTER TRUST AGREEMENT AND THE PARTICIPATION OF SAID TRUST IN THE OTHER POST-EMPLOYMENT BENEFIT PLAN TRUST UNDER THE FLORIDA MUNICIPAL PENSION TRUST FUND MASTER TRUST AGREEMENT; PROVIDING FOR PUBLICATION; PROVIDING FOR REPEAL OF CONFLICTING ORDINANCES; PROVIDING AN EFFECTIVE DATE

REPORT IN BRIEF: The attached ordinance authorizes the Town to invest funds for the Town's other post employment benefits in a Trust Fund in order to comply with the requirements of Governmental Accounting Standards Board Statement Number 45 (GASB 45). As required by State law, the Town provides optional post-employment healthcare and dental coverage to eligible individuals who retire from active service under one of the pension plans sponsored by the Town. Retirees who opt to continue in the Town's health and/or dental plan(s) must pay a monthly premium as determined by the Town which varies based on the coverage elected by the retiree. Under the new accounting requirements of GASB 45 an actuary estimates the anticipated related cost to the employer, in this case the Town, and the employer must then establish a funding mechanism. The Town recently received its GASB 45 actuarial valuation and is ready to establish the Trust. By establishing the Trust now the Town will have met all the deadlines imposed under GASB 45.

Initial funding for the Trust will be \$968,000 as estimated by the actuary in the valuation report. This funding will come from the Self Insurance Fund because the Town had accumulated funds to be used for this purpose which are available for transfer. By making such a substantial initial contribution the Trust should be able to generate enough income each year to meet its actuarial funding requirements without significant subsequent contributions from the Town.

The Master Trust Fund hereby agrees to save, hold

harmless and indemnify the Master Trustees and Administrator from any loss, damage or expense incurred by said persons or entities while acting in their official capacity excepting bad faith or gross negligence.

4. Standard of Review. In evaluating performance of the Master Trustees, compliance by the Master Trustees with this Agreement must be determined in light of the facts and circumstances existing at the time of the Master Trustees' decision or action and not by hindsight.

C. Meetings. The Master Trustees shall meet at least semi-annually, and more frequently if called, at the principal office of the Master Trust Fund or at such other location as may be acceptable to a majority of the Master Trustees. The Chairman of the Master Trustees or

When such action is so authorized by an Individual Master Trustee, any such person may assume conclusively that the Individual Master Trustee has full power and authority to receive and give receipt for any money or property becoming due and payable to the Master Trustees, and no such person shall be bound to inquire as to the disposition or application of any money or property paid or delivered to the Individual Master Trustee, or paid or delivered in accordance with such written direction of the Individual Master Trustee.

J. Reliance on Communications. The Master Trustees may rely upon a certification of the Administrator with respect to any instruction, direction, or approval of the Administrator and may continue to rely upon such certification until a subsequent certification is filed with the Master Trustees. Section 110. AMENDMENT OR TERMINATION OF THIS AGREEMENT; TERMINATION OF PLANS.

A. Amendment. This Agreement and the trusts created hereby may be amended in writing at any time by the concurrence of a majority of the Master Trustees. No amendment to this Agreement, which directly affects the scope of powers of the Master Trustees, terms of office or the selection of Master Trustees shall become effective without the concurrence of the Board of Directors of the Florida League of Cities, Inc.

No change which specifically affects the exercise of powers by the Master Trustees or the fiduciary responsibilities of the Master Trustees to Participating Employers and Participating Employees shall be required to be approved by the Board of Directors of the Florida League of Cities, Inc., nor shall this Section be construed to give the Board of Directors of the Florida League of Cities, Inc. the power to exercise any fiduciary responsibility of the Master Trustees or to interfere with the exercise of those responsibilities by the Master Trustees.

This Agreement may not be amended so as to change its purpose as set forth herein or to permit the diversion or application of any funds of the Master Trust Fund or of the Plans for any purpose other than those specified herein. The Master Trustees, upon adoption of an amendment to this Agreement, shall send a copy of any such amendment to the Participating Employers.

B. Termination. This Agreement and any trust created hereby may be terminated at any time by the Master Trustees with respect to an Employer when the Employer's participation in a participating Plan is terminated or when a Trust Joinder Agreement has been terminated. The Defined Contribution Pension Plan Trust may be terminated in its entirety when all of the

participating defined contribution pension plans have been terminated in their entirety or have terminated their participation in the Defined Contribution Pension Plan Trust. The Deferred Compensation Plan Trust may be terminated in its entirety when all of the participating deferred compensation plans have been terminated in their entirety or have terminated their participation in the Deferred Compensation Plan Trust. The Other Post-Employment Benefit Plan Trust may be terminated in its entirety when all of the participating other post-employment benefit plans have been terminated in their entirety or have terminated their participation in the Other Post-Employment Benefit Plan Trust. The Defined Benefit Pension Plan Trust may be terminated in its entirety pursuant to Florida law. This Agreement and the Master Trust Fund may be terminated in their entirety pursuant to Florida law.

In case of a termination of this Agreement, either in whole or in part, the Master Trustees (subject to the provisions of Section 111 hereof and reserving respectively such sums as the Master Trustees shall deem necessary in settling their respective accounts and to discharge any obligation of the Master Trust Fund for which as trustees the Master Trustees shall be liable) shall hold, apply, transfer or distribute the affected assets of the Master Trust Fund in accordance with the applicable provisions of this Agreement and the affected Plans. Upon any termination, in whole or in part, of this Agreement and the trusts created hereby, the Master Trustees shall have a right to have their respective accounts settled as provided in Section 112.

In the case of the complete or partial termination of this Agreement as to one or more Employers, including a termination arising from the discontinuance or delinquency of contributions, the affected assets of the Master Trust Fund shall continue to be held pursuant to the direction of the Master Trustees, for the benefit of affected Participating Employees and Beneficiaries, pursuant to the benefit provisions of the affected Plan. This Agreement shall remain in full effect with respect to each Participating Employer that does not terminate its participation in the Master Trust Fund on behalf of its Participating Employees, or whose participation is not terminated by the Master Trustees. In the event of a complete termination of the Master Trust Fund, or of the complete termination of the Defined Contribution Pension Plan Trust, the Deferred Compensation Plan Trust, the Defined Benefit Pension Plan Trust or the Other Post-Employment Benefit Plan Trust, the Master Trustees will take reasonable steps to avoid a distribution to the Participating Employees and Beneficiaries, except pursuant to benefit options under the provisions of the participating Plans, including transfers to successor plan(s). However, if distributions must be made, the Administrator shall be responsible for directing distribution of all affected assets of the Master Trust Fund to Participating Employees and Beneficiaries.

Distributions under a participating Plan of existing accounts or accrued benefits to the Participating Employees and Beneficiaries affected by the termination are subject to the benefit provisions of the Plan. However, if a Participating Employer requests a plan-to-plan transfer of Plan assets with respect to the Participating Employer's Participating Employees, the Master Trustees may in their discretion make the transfer.

Notwithstanding the foregoing, the Master Trustees shall not be required to pay out any assets of the Master Trust Fund to Participating Employees and Beneficiaries or a successor plan upon termination of this Agreement or the Master Trust Fund, in whole or in part, until the Master Trustees have received written certification from the Administrator (i) that all provisions

of law with respect to such termination have been complied with, including the termination of a Plan; and (ii) after the Master Trustees have made a determination of the fair market value of the assets of a Plan, that the assets of the Plan are sufficient to discharge when due all obligations of the Plan required by law. The Master Trustees shall rely conclusively on such written certification and shall be under no obligation to investigate or otherwise determine its propriety.

When the assets of the Master Trust Fund affected by a termination have been applied, transferred or distributed and the accounts of the Master Trustees have been settled, then the Master Trustees shall be released and discharged from all further accountability or liability respecting the trust or trusts, or portions thereof, affected by the termination and shall not be responsible in any way for the further disposition of the assets of the trust or trusts, or portions thereof, affected by the termination or any part thereof so applied, transferred or distributed.

No interest, right or claim in or to any part of the Master Trust Fund or the funds of the Plans, or any payment therefrom shall be assignable, transferable or subject to sale, mortgage, pledge, hypothecation, commutation, anticipation, garnishment, attachment, execution or levy of any kind, and the Master Trustees shall not recognize any attempt to assign, transfer, sell, mortgage, pledge, hypothecate, commute or anticipate the same, except to the extent required by law.

Managers shall adhere to the fiduciary standards set forth in the Employee Retirement Income Security Act of 1974 at 29 U.S.C. s. 1104(a)(1)(A) through (C). Individuals, acting in accordance with established procedures and exercising due diligence, shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to minimize any investment losses.

Any individual who is involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. Managers shall have a written policy which addresses the disclosure of potential conflict-of-interests which shall be submitted to the Administrator upon request. Managers shall also disclose to the Administrator any

material financial/investment position or finding which may be contrary to this policy or otherwise related to the performance of the Master Trust Fund's portfolio. Any adverse findings of the U.S. Department of Labor or the Securities and Exchange Commission regarding a Manager or its financial activities shall be brought to the immediate attention of the Master Trustees by the Administrator once the Administrator is notified.

Before engaging in any investment transactions with the Master Trust Fund, a Manager shall have submitted to the Administrator a signed certification from a duly authorized representative attesting that the individuals responsible for the Master Trust Fund's account have reviewed and shall comply with this investment policy and that they agree to undertake reasonable efforts to preclude imprudent transactions involving the assets of the Master Trust Fund.

V. INTERNAL CONTROLS

The Master Trustees require that the Administrator and any other designees establish a system of internal controls which shall be in writing. These controls shall be reviewed by independent certified public accountants as part of any required periodic financial statement audit. The internal controls should be designed to prevent losses of the Master Trust Fund which might arise from fraud, error, misrepresentation by third parties, or imprudent actions by the Master Trustees, Administrator or other designees.

VI. BROKERAGE AND BID REQUIREMENT

Managers shall use their best efforts to ensure that portfolio transactions are placed on a best execution basis. The Master Trustees intend to utilize recapture commissions when it does not interfere with best execution, solely at the discretion of the investment managers. Managers are required to, on a quarterly basis, report all brokerage transactions and reasons for using brokers to the Master Trustees. The Managers shall competitively bid securities in question when feasible and appropriate. Except as otherwise required by law, the most economically advantageous bid must be selected.

VII. PROXY VOTING

Responsibility for the voting of proxies shall be with the Master Trustees. The Master Trustees may exercise the right to assign this responsibility to the investment managers. Since proxy votes may be considered an asset of the Master Trust Fund, the assignment of voting proxies shall be exercised solely in the interest of the participants and beneficiaries of the Master Trust Fund, and for the exclusive purpose of providing benefits to participants and beneficiaries. Documentation related to the handling and voting of proxies will be reported to the Master Trustees on a quarterly basis.

The Master Trustees may (but are not required to) solicit Participating Employees' instructions as to the voting of a Master Trust Fund investment for their benefit. In so doing, the Master Trustees may solicit instructions from only those Participating Employees whose Plan accounts held the applicable investment on the record date fixed by the investment issuer. To the extent that the Administrator receives proper instructions from these Participating Employees, the Master Trustees shall vote the Master Trust Fund's rights in accordance with the instructions.

To the extent of the Master Trust Fund's rights for which Participating Employees did not give proper instructions, the Master Trustees may vote in their discretion.

The Master Trust Fund acknowledges the importance of continuing education for Master Trustees. To that end, the Master Trustees shall attend appropriate educational conferences in connection with their duties and responsibilities as Master Trustees.

IX. REPORTING AND PERFORMANCE MEASUREMENT

The Administrator shall submit to the Master Trustees a quarterly investment report with information sufficient to provide for a comprehensive review of investment activity and performance for the quarter. Performance shall be measured against appropriate indices identified by the Master Trustees for each investment category. This report shall summarize recent market conditions, economic developments and anticipated investment conditions. The report should also summarize the investment strategies employed in the most recent quarter, and describe the portfolio in terms of investment securities, maturities, risk characteristics, adherence to guidelines and other relevant features.

Managers shall provide timely transaction and performance data to record and document investment activity, including asset valuation, yield and total return data and such other relative performance data of the Master Trust Fund's portfolio on a periodic basis as may be reasonably requested by the Administrator.

The Administrator, Managers and other contracted parties shall provide to the Master Trust Fund's auditor such verifications or reports as are required for the purpose of developing and supporting the annual financial statements of the Master Trust Fund and the footnotes thereto.

Managers shall provide immediate written and telephonic notice to the Administrator of any significant event relating to the Master Trust Fund, specifically but not limited to the resignation, termination or incapacity of any senior personnel of any Manager.

X. RISK AND DIVERSIFICATION

The Master Trustees will monitor the return per unit of risk (as measured by the standard deviation of quarterly returns) of the Master Trust Fund's assets on an ongoing basis, with each Manager's contribution being reviewed independently and as to its impact on the overall Master Trust Fund's investment return and volatility of results over time. Each Manager's contribution will be measured against similar data for appropriate benchmarks.

Investment guidelines and monitoring will provide controls for identifying and limiting risk of loss from over concentration of assets invested in a specific maturity, with a single issuer, in like instruments, or dealers or through utilization of intermediaries for purchase and sale of investments.

Risk and diversification strategies shall be reviewed and revised, if necessary, on a regular basis in light of the current and projected market condition and the Master Trust Fund's needs.

Assets in the Master Trust Fund shall be diversified among equities, fixed income and real estate to minimize overall portfolio risk consistent with the level of expected return and thereby improve the long-term return potential of the Master Trust Fund's assets. The Master Trustees reserve the right to add additional diversification by retaining multiple Managers or portfolios, upon Master Trustee approval and amendment to this policy, to further minimize portfolio risk or to maintain the level of expected return.

Managers shall be selected to fulfill a particular diversifying role within the Master Trust Fund's overall investment structure. It is the express intent of the Master Trustees to grant each Manager substantial discretion over the assets under its control.

XI. CUSTODIAN

The Custodian shall hold all actively managed or non-indexed assets of the Master Trust Fund. The Custodian will operate in accordance with a separate agreement with the Master Trustees. All securities shall be held with a third party, and all securities purchased by, and all collateral obtained by the Master Trustees shall be properly designated as an asset of the Master Trustees. No withdrawal of securities, in whole or in part, shall be made from safekeeping except by the Master Trustees or their designee. Securities transactions between a broker-dealer and the custodian involving purchase or sale of securities by transfer of money or securities must be made on a "delivery versus payment" basis, if applicable, to ensure that the Custodian will have the security or money, as appropriate, in hand at the conclusion of the transaction.

XII. DEFINED BENEFIT PLAN SPECIFICATIONS

These provisions relate to the investment of the assets of the Defined Benefit Pension Plan Trust and the portion of the Other Post-Employment Benefit Plan Trust relating to other post-employment benefit plans that are defined benefit plans.

A. Investment Objective and Expected Annual Rate of Return. The primary objective is to seek long-term growth of capital and income consistent with conservation of capital. Necessary liquidity will be maintained to meet payout requirements. Emphasis is placed on achieving consistent returns and avoiding extreme volatility in market value.

As of October 1 of each year, the Master Trustees shall determine for the defined benefit plans in the Master Trust Fund the total expected annual rate of return for the current year, for each of the next several years and for the long-term thereafter. The expected annual rate of return for the current year and long-term thereafter is 7.5%, until amended by the Master Trustees. This determination must be filed promptly with the Department of Management Services, the Administrator, Master Trustees, and the actuaries, if any, for the Plans. Specific Plan provisions may supersede this expected rate of return by approval of the Administrator and Plan actuary.

B. Asset Allocation and Portfolio Composition. Assets of the Master Trust Fund shall be invested in a diversified portfolio consisting of equity and debt. Although cash is not

included in the asset allocation of the Master Trust Fund, surplus cash flows, additional contributions and Manager cash will be utilized to pay obligations of the Master Trust Fund and periodic re-balancing of the assets. The Master Trust Fund may consider investments in other asset classes which offer potential enhancement to total return at risks no greater than the exposure under the initially selected asset classes.

From time to time the Master Trustees will adopt asset allocation strategies within the ranges specified below:

	<u>Maximum Target Limitation</u>
Equities	70% at market

The Master Trustees may employ an independent consultant to perform an annual, or more frequent, Asset Allocation Report that will include, but not be limited to, a strategic analysis and report on asset allocation investments between different types of investments and appropriate changes to the percentages therein. This study will be used to assist the Master Trustees in the determination of the appropriate investment allocation to maximize the return and minimize the risk to the pooled assets of the Master Trust Fund. This study may include a recommendation to add or delete asset classes as is warranted by the risk/reward analysis and by Master Trustees' approval.

The Master Trustees are not bound by acceptance or denial of recommendations presented in conjunction with the Asset Allocation Report.

It is not the intention of the Master Trust Fund to become involved in the day-to-day investment decisions. Therefore, the Administrator is authorized by this policy to make asset allocation decisions to reallocate or redirect either contributions or the investments held by the Master Trust Fund in order to take advantage of changing market conditions. Any tactical allocation that will cause the allocation of the investment classes to vary from the approved strategic allocation percentages of any asset class by more than 5% requires approval by the Chair of the Master Trustees.

The Administrator will report to the Master Trustees at their quarterly meetings on the tactical and re-balancing allocation decisions made during the prior quarter.

C. Maturity and Liquidity. The Master Trust Fund shall provide sufficient liquidity to meet any required payment.

D. Authorized Investments. In an effort to accomplish the objectives of the Master Trust Fund, this policy identifies various authorized investment instruments, issuer diversification, maturity constraints, investment ratings and liquidity parameters. The following are authorized investments:

1. Repurchase agreements which are purchased only from dealers authorized by the Master Trustees and may only involve the sale and repurchase of securities authorized for purchase by this investment policy. XIII. DEFINED CONTRIBUTION AND DEFERRED COMPENSATION PLAN SPECIFICATIONS

These provisions relate to the investment of the assets of the Defined Contribution Pension Plan Trust, the Deferred Compensation Plan Trust and the portion of the Other Post-Employment Benefit Plan Trust relating to other post-employment benefit plans that are defined contribution plans.

A. Purpose. The Master Trustees are charged with the overall responsibility to manage the Master Trust Fund assets prudently on behalf of the Participating Employees. The general purpose of this investment policy is to assist the Master Trustees in discharging their responsibility to supervise, monitor and evaluate the investment of the Master Trust Fund assets. The Master Trustees believe this investment policy should be dynamic and should be reviewed periodically. The Master Trustees intend that this policy will not be overly restrictive given changing economic, business and capital market conditions.

Therefore, this policy is compiled to ensure:

1. The Master Trustees define a formal set of investment objectives, guidelines and procedures for the management of the Master Trust Fund assets, subject to the terms of the Plans' documents and investment advisory agreements entered into by the Managers and the Trustees.
2. Direct and indirect investment expenses are controlled and reasonable.
3. The investments of the Master Trust Fund assets are managed in accordance with the fiduciary prudence and due diligence requirements that experienced investment professionals would utilize and with all applicable laws, rules and regulations from various state, local and federal agencies that may impact the Master Trust Fund assets.
4. If and to the extent permitted by their respective Plans, Participating Employees and Beneficiaries have the ability to invest in a variety of asset classes, thereby gaining exposure to a wide range of investment opportunities.

B. Investment Objective. To the extent any Plans provide for participant-directed investments, the Master Trust Fund will make available a range of different diversified investment options that have varying degrees of risk and return.

It is anticipated, but not required, that the same investment options be available for each Plan. Investment options offered to Participating Employees and their Beneficiaries shall be approved by the Trustees.

To the extent any Plans provide for participant-directed investment, the primary objective of the Master Trust Fund is to offer the Participating Employees and their Beneficiaries a range

of investment choices to permit diversification and a choice of investment strategies. The objectives are further defined as follows:

1. To provide a spectrum of investment options so a Participating Employee will be able to choose the investment mix that may fall within a range of risk and return characteristics customarily appropriate for the Participating Employee.

2. To provide sufficient investment choices so that the asset classes selected shall be such that taken together Participating Employees will have a reasonable opportunity to materially affect the potential investment returns in their accounts, while at the same time controlling risk or volatility. It is the intent that a Participating Employee may be able to build a balanced portfolio in a manner generally consistent with modern portfolio theory.

C. Guidelines

1. Investment options for the Participating Employees shall be determined solely in the interest of the Participating Employees and their Beneficiaries and for the exclusive purpose of providing benefits to the Participating Employees and their Beneficiaries.

2. Investment options for the Participating Employees shall be determined with the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of like character and aims.

3. Investment options for the Participating Employees shall be determined so as to offer an array of investment options so Participating Employees can protect themselves from large losses by appropriately diversifying their account.

D. Participant Control. To the extent permitted by the Plans, Participating Employees shall be given control over the investment allocation process. This shall include the right to change investment allocations of existing account balances and future contributions daily. Participating Employees shall also be given information necessary for them to reasonably understand the investments and to make reasonably informed investment decisions.

E. Procedure

1. The Master Trustees shall use business judgment in selecting investment products limited to registered investment company ["mutual fund"] shares and collective investment fund units, which the Master Trustees may own indirectly through a group trust or a securities account. The Plans' investment options shall not include any investment for which the indicia of ownership cannot be held by the Master Trustees in the United States of America. Investment companies need not be classified as "diversified" as defined by the Investment Company Act of 1940. Both passive and actively managed investment strategies will be considered.

2. The following characteristics (when applicable) shall be considered in selecting the specific asset classes and corresponding investments to be made available to Participating Employees:

(a) Investment category and objective as defined in the prospectus or equivalent literature as well as current and historically consistent adherence to the asset classes and investment styles as defined in Section XIII.F below.

(b) The Manager(s) and tenure. (Longer tenure is preferred.)

(c) Acquisition costs and ongoing management fees including turnover. (Lower fees and turnover are preferred.)

(d) Investment record: total returns (net of expenses) on a time-weighted basis over three- and five-year periods and their relationship to appropriate benchmarks and peer groups. (Higher returns are preferred.)

(e) Risk adjusted return measurements: Sharpe Ratio and Alpha Returns and their relationship to appropriate benchmarks and peer groups. (Higher Sharpe Ratio and Alpha Return are preferred.)

(f) Risk characteristics: risk as measured implicitly by reviewing standard deviation and beta as used to compute Sharpe Ratios and Alpha statistics. (Lower standard deviations and betas are preferred.)

(g) Any other criteria that the Master Trustees deem worthwhile in judging the suitability of an investment, including, but not limited to, funds of the type customarily described or classified as socially responsible, as long as the overall range of other investment options meets all requirements of this investment policy.

The Master Trustees shall review the long-term performance, risk and correlation characteristics of various asset classes, focusing on the balance between risk and return and the asset class' market behavior so that the investment options reasonably span the risk/return spectrum.

3. Miscellaneous Criteria: In selecting the specific investments to be made available to participants, the Master Trustees shall consider the following additional criteria:

(a) *Services to Participating Employees*

(1) Communication from the funds

(2) Accessibility to fund information

(3) Ease and cost of investment transfers

(4) Nature and frequency of reports to Participating Employees

(b) *Services to Master Trustees*

- (1) Nature and frequency of investment reports
- (2) Availability and access to Administrator and Managers
- (3) Corresponding costs and expenses associated with Plan record keeping and reporting and administration
- (4) Quantitative and qualitative due diligence regarding the Managers

F. Asset Classes. As a result of review and analysis, and in consideration of the criteria outlined in this policy, the Master Trustees have selected the following asset classes (investment styles). H. Performance Measurement

1. Each investment shall be measured against the performance of its corresponding asset class and peer group as defined by performance monitoring services deemed to be acceptable by the investment consultant to the Master Trust Fund.

2. The performance of each investment shall be measured against market indexes that correspond with its investment category.

- (a) Money Market Fund: Morningstar 3-Month Treasury Bill Index
- (b) Pooled GIC Fund: Morningstar 3-Month Treasury Bill Index
- (c) Short Term Bond Fund: Lehman Brothers Government 1-3 year Bond Index
- (d) Intermediate Term Bond Fund: Lehman Brothers Aggregate Bond Index
- (e) Long Term Bond Fund: Lehman Brothers Government/Credit Long Bond Index
- (f) Balanced Fund: S&P 500 Index and the Lehman Brothers Aggregate Bond Index
- (g) Large Company Value: Russell 1000 Value Index
- (h) Large Company Core Fund: S&P 500 Index
- (i) Large Company Growth Fund: Russell 1000 Growth Index
- (j) Small Company Core Fund: Russell 2000 Index
- (k) Foreign Fund: MSCI EAFE Index
- (l) Emerging Markets Fund: MSCI Emerging Markets Free Index
- (m) Real Estate Fund: Wilshire REIT Index

3. The performance of each investment may be measured against additional standards and benchmarks established by the Master Trustees from time to time as criteria for continued acceptance of each investment.

I. Criteria for Evaluating Funds Selected in Each Asset Category

1. The following information shall be considered in determining if an investment option should be replaced. Once an investment is selected for the Master Trust Fund, performance will be evaluated from the date it was added to the Master Trust Fund using these criteria. At all times each mutual fund must carry a Morningstar Star rating of at least a three if available.

- (a) Portfolio statistics as determined by portfolio and style analysis that demonstrates a departure from the fund's intended investment category (asset class).

(b) Termination of the Manager, material change in the management team or change in ownership.

(c) Increase in direct and indirect expenses.

(d) A total return in the lowest 25th percentile in any consecutive 4 calendar quarters as compared to the fund's peer group that defines the comparable investment styles (universes).

(e) Rolling total returns in the bottom 50th percentile for any 3-year period ending on a calendar quarter as compared to the fund's peer group that defines the comparable investment styles (universes).

(f) Sharpe Ratios in the bottom 50th percentile for any 3-year period ending on a calendar quarter as compared to the fund's peer group that defines the comparable investment styles (universes).

(g) Negative Alpha Returns over any three-year period ending on a calendar quarter for actively managed funds. This is an observable and not actionable measurement and should be factored in only if there are other reasons for the fund to be on the monitor list.

(h) Any other information that may lead the Master Trustees to believe the fund is not fulfilling the intent and purpose of this policy, including performance relative to indexes specified in Section XIII.H above.

Investment options offered through the MetLife CHART Program are exempt from the following minimum performance criteria. However, as part of the effort to monitor the viability of the CHART Program, the Master Trustees will generally evaluate their proprietary funds in a manner comparable to what is applied to any fund included on the investment menu. The CHART Program is an advisory service offered by MetLife that utilizes "fund of funds" actively managed by MetLife.

Risk is measured implicitly by reviewing the Sharpe Ratio and Alpha statistic.

If any of these events occur, the Master Trustees shall consider whether the fund continues to be an appropriate investment for the Master Trust Fund. The Master Trustees acknowledge that fluctuating rates of return characterize the securities markets, particularly during short-term time periods. Recognizing that short-term fluctuations may cause variations in performance, the Master Trustees intend to evaluate Manager performance from a long-term perspective giving funds an opportunity to recover from periods of poor returns. If a Manager has consistently failed to adhere to one or more of the above conditions, it is reasonable to presume a lack of adherence going forward. Failure to remedy the circumstances of unsatisfactory performance by the Manager, within a reasonable time, shall be grounds for termination. Any recommendation to terminate a Manager will not be made solely based on quantitative data. Frequent changes are neither expected nor desirable. When a fund is replaced, all assets in the replaced fund will be transferred to the new fund 30 days after the Master Trustees have

voted to remove the fund. Written notice to all affected Participating Employers will be sent within 10 days of the Master Trustees decision to remove the fund. All deposits previously allocated into the replaced fund will be directed to the new fund. Appropriate information about the fund replacement and new fund prospectus will be given to Participating Employees prior to the exchange.

Events that Constitute Immediate Removal of a Mutual Fund.

In an effort to maintain strict oversight of the mutual funds in which assets of the Defined Contribution Pension Plan Trust, Deferred Compensation Plan Trust and Other Post-Employment Benefit Plan Trust are held, the following guidelines have been developed as a basis for when a mutual fund must immediately be removed from the Master Trust Fund. Funds meeting the following criteria may be removed by the Administrator with 30 days written notice to affected Participating Employees and notification to the Chair of the Master Trustees. Written notice to all affected Participating Employers will be sent within 10 days of the decision to remove the fund. Appropriate information about the fund's replacement and new fund prospectus will be given to Participating Employees prior to the exchange.

- Management team termination
- 12-month returns as compared to the relevant universe in the bottom 10th percentile

2. Qualitative due diligence of each fund will be conducted on a periodic basis with appropriate parties at each investment entity. Any issue materially affecting the management staff and investment process associated with each fund will be considered, including:

- (a) Changes to the management team or the firm's ownership.
- (b) Modifications to the fund's investment policy, philosophy and decision process.
- (c) Deviation of investment style, regulatory action and investigation or litigation by a government agency.

J. **Proxy Voting.** The Master Trustees will vote on all proxies issued by the mutual funds.

XIV. REVIEW AND AMENDMENTS

It is intended that the Managers, investment consultants, Administrator and Master Trustees review this investment policy periodically. If at any time a Manager or consultant believes that the specific objectives defined herein cannot be met or that the guidelines unreasonably constrict performance, the Master Trustees shall be notified in writing. By the initial and continuing acceptance of these investment guidelines, the Manager concurs with the provisions of this policy.

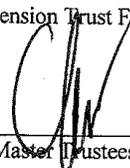

XV. FILING OF INVESTMENT POLICY

Upon adoption by the Master Trustees, this investment policy shall be promptly filed with the Department of Management Services, the Participating Employers and the Plans' actuaries, if any. The effective date of this investment policy and any amendment hereto, shall be the 31st calendar day following the date of such filing.
