

MEMORANDUM

Fire Department

TO: Robert Middaugh, Town Administrator

FROM: Michael Donati, Fire Chief

DATE: February 25, 2000

SUBJECT: Smoke Detectors Program

The Fire Department and the Police Department are jointly working on a program to provide smoke detectors to the mobile home parks in Davie. At this time, the date to start the program has not been established. I expect that this program would be initiated between the middle of March or the beginning of April.

The Fire Department has secured 80 smoke detectors and is presently trying to secure additional smoke detectors from First Alert and Home Depot located in Davie. It should be kept in mind that the Town may have to provide funding to purchase smoke detectors for this program. I will keep you informed of the progress being made on this project.
