Applicable Codes and Ordinances

The effective code of ordinances governing this project is the Town of Davie Land Development Code.

The Broward County Land Development Code requires a Delegation Request for a plat note amendment.

Significant Development Review Agency Comments

Broward County Development Management Division is the County lead agency in assessing the impact of development through the plat and/or delegation request process. Broward County requires that the petitioner request to amend or revise the level of approved development on the plat. Such requests must be approved by the local municipality and County Commission, and then subsequently recorded against the plat. As part of the delegation request process, the property would be reviewed for traffic concurrency and assessed any additional traffic impact fees, or mitigation measures, as applicable.

Comprehensive Plan Considerations

Planning Area: The subject property falls within Planning Area 1. This Planning Area constitutes the southwestern most portion of the Town, encompassing all of the land south of Griffin Road and west of southwest 148 Avenue. The Ivanhoe development constitutes most of this planning area, which is essentially programmed for low density (3 dwellings per acre) residential development. There are parcels designated for commercial use located in the southern and northern ends of the Ivanhoe development at the intersection of I-75 with Sheridan and Griffin Roads, and Orange Drive.

Broward County Land Use Plan: The subject site falls within Flexibility Zone 113.

Broward County Land Development Code: The Broward County Land Development Code requires that any changes or waivers to requirements of development permit applications be reviewed and approved or disapproved by the municipality with final approval by Broward County Commission.

Applicable Goals, Objectives & Policies:

The proposed amendment to the restrictive note of ICW North Plat is generally consistent with the goals, objectives and policies of the Comprehensive Plan.

Staff Analysis/Findings of Fact

The proposed delegation request would transfer commercial use between parcels. Parcel C was originally approved for 15,000 square feet of commercial use but was subsequently excavated and made into a lake. The petitioner is requesting to transfer the 15,000 square feet of commercial use from Parcel C to Parcels B and D.

The proposed amendment is consistent with the existing and proposed use of the subject site. Approval of this request is subject to sufficient capacity of the regional road network as determined by Broward County. In the event sufficient capacity is not met, the delegation request shall be deemed denied by the Town of Davie.

Staff Recommendation

Recommendation: Staff finds the subject application complete and suitable for transmittal to Town Council for further consideration.

JUSTIFICATION FOR DELEGATION REQUEST

RE: ICW North Plat
Plat Note Amendment Application

The ICW North Plat consists of a number of different commercial and light industrial uses. The applicant seeks this Plat Note Amendment to change the restrictive note on the plat to coincide with the development as it is occurring as well as to accommodate commercial uses on the business center located on Parcels B and D. Originally Parcel C was designated for 15,000 feet of commercial development. Subsequently Parcel C was excavated and made into a lake and is now part of an adjoining existing lake. As a result, there obviously will not be commercial development on Parcel C. The applicant seeks to transfer the 15,000 square feet of commercial use to Parcels B and D to accommodate commercial uses in the existing business center. This amendment will not increase the intensity of the development and does not increase trips in any fashion. Finally, the transfer will not result in the expansion of any existing development rights.
