ABOUT OJP

The Office of Justice Programs (OJP), U.S. Department of Justice, was created in 1984 to provide federal leadership in developing the nation's capacity to prevent and control crime, administer justice, and assist crime victims. OJP carries out this mission by forming partnerships with other federal, state, and local agencies, as well as national and community-based organizations. OJP is dedicated to comprehensive approaches that empower communities to address crime, break the cycle of substance abuse and crime, combat family violence, address youth crime, hold offenders accountable, protect and support crime victims, enhance law enforcement initiatives, and support advancements in adjudication. OJP also works to reduce crime in Indian Country, enhance technology use within the criminal and juvenile justice systems, and support state and local efforts through technical assistance and training.

ABOUT BJA

The Bureau of Justice Assistance (BJA), Office of Justice Programs, U.S. Department of Justice, supports law enforcement, courts, corrections, treatment, victim services, technology, and prevention initiatives that strengthen the nation's criminal justice system. BJA provides leadership, services, and funding to America's communities by emphasizing local control; building relationships in the field; developing collaborations and partnerships; promoting capacity building through planning; streamlining the administration of grants; increasing training and technical assistance; creating accountability of projects; encouraging innovation; and ultimately communicating the value of justice efforts to decision makers at every level.

ABOUT JAG

Proposed to streamline justice funding and grant administration, the Edward Byrne Memorial Justice Assistance Grant (JAG) Program allows states, tribes, and local governments to support a broad range of activities to prevent and control crime based on their own local needs and conditions. JAG blends the previous Byrne Formula and Local Law Enforcement Block Grant (LLEBG) Programs to provide agencies with the flexibility to prioritize and place justice funds where they are needed most.

Formula

The JAG formula includes a state allocation consisting of a minimum base allocation with the remaining amount determined on population and Part 1 violent crime statistics, and a direct allocation to units of local government. Once the state allocation is calculated, 60% of the funding is awarded to the state and 40% to eligible units of local government. State allocations also have a variable pass through requirement to locals, calculated by the Bureau of Justice Statistics (BJS) from each state's crime expenditures.

Purpose Areas

JAG funds can be used for state and local initiatives, technical assistance, training, personnel, equipment, supplies, contractual support, and information systems for criminal justice for anyone or more of the following purpose areas:

- Law enforcement programs
- Prosecution and court programs
- Prevention and education programs
- Corrections and community corrections programs .Drug treatment programs
- Planning, evaluation, and technology improvement programs

* Any law enforcement or justice initiative previously eligible for funding under Byrne or LLEBG is eligible for JAG funding.

Responsibilities

The chief executive officer of an eligible unit of local government or a local agency designated by the chief executive officer must apply for JAG funds. A unit of local government receiving a JAG award will be responsible for the administration of the funds including distributing the funds; monitoring the award; submitting reports including performance measure and program assessment data; and providing ongoing assistance to any subrecipients of the funds.

Administrative Funds

A unit of local government may use up to 10 percent of the award for costs associated with administering JAG funds.

Eligibility

Units of local government appearing on the *FY 2005 Units of Local Government List* established by BJS are eligible to apply for JAG funds. For JAG program purposes, a unit of local government is: a town; township; village; parish; city; county; or other general purpose political subdivision of a state; or a federally recognized Indian Tribe or Alaskan Native organization that performs law enforcement functions as determined by the Secretary of the Interior. In Louisiana, a unit of local government means a district attorney or a parish sheriff. For a listing of eligible units of local government, go to www.ojp.usdoj.gov/BJA/grant/jagallocations.html.

Disparate Certification

A disparate allocation occurs when a constituent unit of local government is scheduled to receive one and one half times more (four times more for multiple units of local government) than another constituent unit(s), while the other unit of local government bears more than 50% of the costs of prosecution or incarceration that arise for Part 1 violent crimes reported by the geographically constituent unit(s). JAG dispartes are certified by the Director of BJA, based in part on input from the state's Attorney General. For a listing of disparate jurisdictions, go to www.ojp.usdoj.gov/BJA/grant/jagallocations.html.

- Jurisdictions certified as disparate must submit a **joint application** for the aggregate of funds allocated to them, specifying the amount of the funds that are to be distributed to each of the units of local government and the purposes for which the funds will be used. The units of local government involved may establish a joint advisory board to carry out the joint application process. When beginning the JAG application process, a Memorandum of Understanding (MOU) must be completed, signed, and faxed to OJP, indicating who will serve as the applicant/fiscal agent for the joint funds. MOUs must be faxed to 202-354-4147, with the OJP Grants Management System (GMS)-generated application number printed on each page. For a sample MOU, go to www.ojp.usdoj.gov/BJA/grant/05JAGMOU.pdf.

Application Reviews

The eligible unit of local government applying for a JAG award must make the grant application available for review to the governing body of the unit of local government or an organization designated by that governing body not fewer than 30 days before the application is submitted to BJA. Also, the unit of local government must provide an assurance that the application or any future amendment was made public and an opportunity to comment was provided to citizens and to neighborhood or community organizations to the extent applicable law or established procedure makes such an opportunity available.

Supplanting

Federal funds must be used to supplement existing funds for program activities and cannot replace, or supplant, nonfederal funds that have been appropriated for the same purpose.

Award Amount

Of the 40% allocated for direct awards to units of local government from the total JAG appropriation, funds will be allocated and awards made to units of local government by BJA based on the same ratio to such share as the average annual number of Part 1 violent crimes reported by the unit to the Federal Bureau of Investigation (FBI) for the 3 most recent calendar years for which data is available bears to the number of Part 1 violent crimes reported by all units of local government in the state to the FBI for such years.

- For FY 2005, 2006, and 2007, BJA will allocate the local amount to units of local government in the same way the LLEBG program amount was allocated among reporting and nonreporting units of local government.
- If the allocation to a unit of local government is less than \$10,000, the direct JAG award to the state will be increased by the total amount of such allocations to be distributed among state police departments that provide criminal justice services to units of local government and/or to any units of local government whose allocation is less than \$10,000.

Length of Award

Awards are made in the first fiscal year of the appropriation and may be expended during the following 3 years, for a total of 4 years. Extensions beyond this period may be made on a case-by-case basis at the discretion of the Director of BJA.

Match

While match is not required with the JAG Program, match is an effective strategy for states and units of local government to expand funds and build buy-in for law enforcement and criminal justice initiatives.

Trust Fund

The unit of local government must establish a trust fund in which to deposit JAG funds. The trust fund may or may not be an interest bearing account.

Prohibited Uses

JAG funds cannot be used directly or indirectly for security enhancements or equipment to nongovernmental entities not engaged in criminal justice or public safety. Based on extraordinary and exigent circumstances making the use of funds essential, BJA may certify a unit of local government's request to use funds for:

- Vehicles, vessels, or aircraft
- Luxury items
- Real estate
- Construction projects, other than penal or correctional institutions

Program Narrative

The scientific examination of physical evidence is a critical element in police efforts to conduct successful criminal investigations and prosecutions. For many years the Davie Police Department did not have an adequate evidence recovery program. In November 2004 the Department developed a specialized Crime Scene Unit with three highly trained crime scene technicians. The Crime Scene Unit has been responsible for the collection of physical evidence through photography, physical crime scene search, recovery of latent fingerprints and the collection of physical evidence. The unit responds to all unnatural deaths, whether homicide or suicide, sexual battery cases, most maiming complaints and most home and business robberies. The Crime Scene Unit also assists uniform patrol with the processing of burglaries, fatality accidents, arson cases, and mass fatality scenes.

The Davie Police Department crime scene technicians are equipped with basic equipment necessary to respond to crime scenes. Due to the lack of resources the crime scene technician's work has been limited to identifying, collecting and preserving physical evidence at crime scenes. The evidence is sent to the Broward County Crime Laboratory for analysis and processing. The Broward County Crime Lab works with all police agencies in Broward County, therefore the waiting period for processing evidence is substantial.

In order to expedite the processing of evidence and work more effectively the Davie Police Department plans to expand the crime scene unit to include an in-house forensic laboratory. The laboratory will be equipped with the most updated and sophisticated equipment for processing evidence in the Town of Davie, including a fingerprint station, a ductless fume enclosure and a fuming chamber. The primary focus will be latent search and development through the use of a variety of chemicals and powders in conjunction with Alternative light sources. The technicians will develop and document latent prints on both porous and non-porous surfaces. Evidence requiring advance scientific examination such as DNA testing, trace analysis and comparison of latent prints recovered from crime scenes will be forwarded to the Broward County crime lab for further processing.

The in-house laboratory will be a valuable asset to the crime scene unit and to detectives conducting criminal investigations. The lab will facilitate the initial screening and analysis of evidence in a timely manner, potential evidence will be secured for further analysis or store future processing. In addition, the in-house lab will alleviate some of the Broward County crime lab workload by enabling crime technicians to conduct preliminary testing and improving efficiency.

Budget Narrative

The in-house laboratory will be equipped with the following:

Downflow Fingerprinting Workstation Station will be utilized to process fingerprints using power. This unit draws powders, fumes and odors down and away from the operator's breathing zones.

Cyanoacrylate Fuming Chamber will be utilized to process fingerprints using superglue. This ductless unit has humidity control, a heat source, internal circulation fan, microprocessor control and a carbon filtering system to capture the hazardous fumes produced while developing fingerprints.

AURA Ductless Fume Enclosure will be utilized to process fingerprint using chemicals. This re-circulating system ensures that no harmful fumes are returned to the environment.

Alternative Light Source will be utilized to find non-visible evidence such as blood, body fluids, fingerprints and more.

20.5 cubic Refrigerator will be utilized to maintain temperature sensitive evidence.

Triple Tier lockers will be utilized for temporary storage for evidence that is under processing.

Chemical Storage Cabinet will be utilized to secure hazardous chemicals used in the laboratory.
