Pursuant to the actuarial impact statement the amendment cost is \$368,252 annually (see attached).

As a result, we respectfully request Town Councils approval to the attached ordinance on the first reading.

**Subject: Town of Davie Police Pension Plan
Actuarial Impact Statement for Plan Amendment**

Dear Joe:

We are pleased to enclose an Actuarial Impact Statement in support of the amendment of the Town of Davie Police Pension Plan. The Actuarial Impact Statement is for the following changes:

- Increase the member contribution rate from 6.5% to 7.0% effective October 9, 2003.
- Effective on the first full pay period in October 2003, the retirement benefit accrual would be three percent (3.0%) of Final Average Earnings (FAE) multiplied by the first 10 years of Benefit Service, plus four percent (4.0%) of FAE times the next 10 years of Benefit Service, and plus two percent (2.0%) times FAE for the next 10 years of Benefit Service. The maximum retirement benefit accrual is 90% of FAE.
- Allow the buyback of up to a total of four (4) years of prior military and sworn police officer service as Benefit Service at true actuarial cost. A member would not be deemed vested until the completion of 10 years of actual service as a sworn police officer with the Town. (No cost impact to the Fund)
- Allow members to enter the Deferred Retirement Option Plan (DROP) within five (5) years after reaching their Normal Retirement Date. Total years of Benefit Service and DROP participation limited to 25 years. (No cost impact to the Fund)

The results of our calculations indicate that the changes will increase the annual minimum City contribution by \$368,252 (4.1% of covered payroll) for the October 1, 2003 through September 30, 2004 plan year. The plan changes have already been reflected in the October 1, 2003 Actuarial Valuation.
