7. PUBLIC SCHOOL FACILITIES ELEMENT DATA, INVENTORY, AND ANALYSIS

INTRODUCTION

Broward County and the 26 non-exempt municipalities within the County are required by Chapter 163, Part II, F.S., to amend their respective Comprehensive Plans to address school concurrency. The required amendments to the Comprehensive Plan include: adoption of a Public School Facilities Element (PSFE) that is consistent with those adopted by other local governments within the County; adoption of related amendments to the Intergovernmental Coordination Element (ICE) and Capital Improvements Element (CIE) by February 1, 2008. Each of the proposed amendments adds new guidelines to the respective element of the Comprehensive Plan in the form of Goals, Objectives and Policies.

As supporting data and analysis for the proposed comprehensive plan amendments, the Town of Davie has adopted the Public School Facilities Element Support Document of Broward County.
